

ENVIRONMENTAL POLICY

The CPC Engineering vision is to “Minimise environmental impact in everything we do”. Our activities will be planned and conducted to reduce our environmental footprint to protect the natural environment, our heritage, for the benefit of current and future generations.

CPC Engineering commits to:

- Complying with all applicable legal and other requirements;
- Setting environment objectives and targets based on the prevention of pollution and environmental harm;
- Minimising waste disposal through waste avoidance, recycling and resource recovery;
- Ensuring the sustainable use of all water resources through considering possibilities for water reduction and re-use principles;
- Focusing on continuous improvement in our environmental performance;
- Conducting regular audits and assessments to identify environmental aspects and impacts;
- Minimise adverse environmental impact;
- Maintaining a framework for reviewing objectives and targets and monitoring performance through auditing and self-regulation;
- Communicating our environmental policy and commitments to external stakeholders and the public;
- Providing our employees and contractors with environmental training;
- Making appropriate resources available to implement this Policy
- This policy applies to all employees, contractors and visitors engaged in activities under CPC Engineering's control

The Chief Executive Officer of CPC Engineering is accountable to the Board of Directors for ensuring that this policy is implemented.

A handwritten signature in blue ink, appearing to read "Glen Weir".

Glen Weir
Chief Executive Officer
