

Civil

CPC Engineering provides a full range of concrete construction services for surface & underground mining.

CPC Engineering employs local & FIFO teams of dedicated professionals with civil mining skills gained in Australia and overseas locations, to deliver innovative solutions to our clients, both on time and within budget.

Building on our outstanding reputation in civil infrastructure, CPC has increased its capabilities in:

Surface

- Mill and crusher foundations
- Suspended slabs
- Concrete foundations walls & infrastructure
- Retaining walls
- Vehicle wash down facilities
- Sumps and loading ramps
- Bunded slabs and aprons
- Camp infrastructure

Underground

- Materials handling including crushing, loading and transfer stations
- Dams and sumps
- Workshops
- Magazines
- Refuelling bays
- Pump stations
- Process watering & dewatering
- Ventilation fans

CPC ENGINEERING

A reputation built over 45 years of expertise and integrity, delivering engineering, construction and maintenance services to the minerals resource sector.

CPC's success is driven by a commitment from our people to add value in everything we do.

CPC employs over 300 personnel in Australia and overseas.
